

Requests the honor of your participation in the  
**PROBASTAT 2011**  
6th International Conference on Probability and Statistics  
July 4 - 8, 2011, Smolenice Castle, Slovakia

This is the next in a long-running series of PROBASTAT conferences with the purpose of stimulating exchanges of ideas and research in the field of probability and statistics.

The history of the PROBASTAT conference goes way back for more than 35 years. The very first national conference was organized in 1975 by the Institute of Measurement Science of the Slovak Academy of Sciences. The ensuing series of 10 national conferences was then followed in a more favorable atmosphere by the first international PROBASTAT in 1991 held at Comenius University in Bratislava. Further conferences in the series occurred in 1994, 1998, 2002, and 2006 all jointly organized by the Slovak Academy of Sciences (Institute of Measurement Science and Mathematical Institute) and Comenius University in Bratislava (the Faculty of Mathematics, Physics and Informatics). From that time on, the researchers in the field of probability and mainly statistics have met and enjoyed the friendly and relaxed academic atmosphere in the beautiful environment of the Smolenice Castle. We hope that the sixth international PROBASTAT will be no exception to this; the same location, the same organizing institutions.

PROBASTAT 2011 will include invited and contributed talks and posters in the following research areas:

- Regression and Mixed Models;
- Optimal Experimental Design;
- Random Processes;
- Applied Probability and Statistics.

A Proceedings volume is intended to be published after the Conference.

The more detailed information (including the information on the conference fee, the payment options and the available accommodation/prices in Smolenice Castle) will be available before October 15, 2010 at

<http://www.um.sav.sk/en/probastat2011.html>
